[05:30] just torrents? [05:30] and I want to [05:30] ok [05:30] morsy: i am getting to the point of not caring whether i'm getting the torrents and the content [05:30] now i can get back to torrents [05:30] that's probably just bad decision making on my part [05:30] but the thing is i already use a proxy to pull torrents through [05:30] that means that if there's a problem that's a security issue, i need to be able to do my own solution [05:30] not to upload too much content without letting someone else take it [05:30] Vexter: why not? if it would improve the situation you don't need to deal with it. and you don't have to worry about people being able to see your torrents to do stuff, since they've already seen all the content they want [05:30] that should solve your problems [05:30] morsy: why not? [05:30] the torrents would be removed and replaced with the content [05:30] if they're only 100% free [05:30] we don't want people taking the content to see how much you paid [05:30] to see if you still have the content, or if you did something else that got them to pay [05:30] not to upload torrents [05:31] s mp3s m4s mov videos rts sound x265 wmv files.
